NINTENDO DS™

Nintendo DS

Taking portable game systems to a new dimension, the Nintendo DS offers more ways to play than any handheld system to date. Dual screens and 3-D rendered graphics allow an unprecedented level of immersion. Touch-screen technology advances the user-game interface to a more sophisticated level. And via wireless communication, one player can upload game content to other DS owners in the vicinity, for real-time multiplayer gameplay.

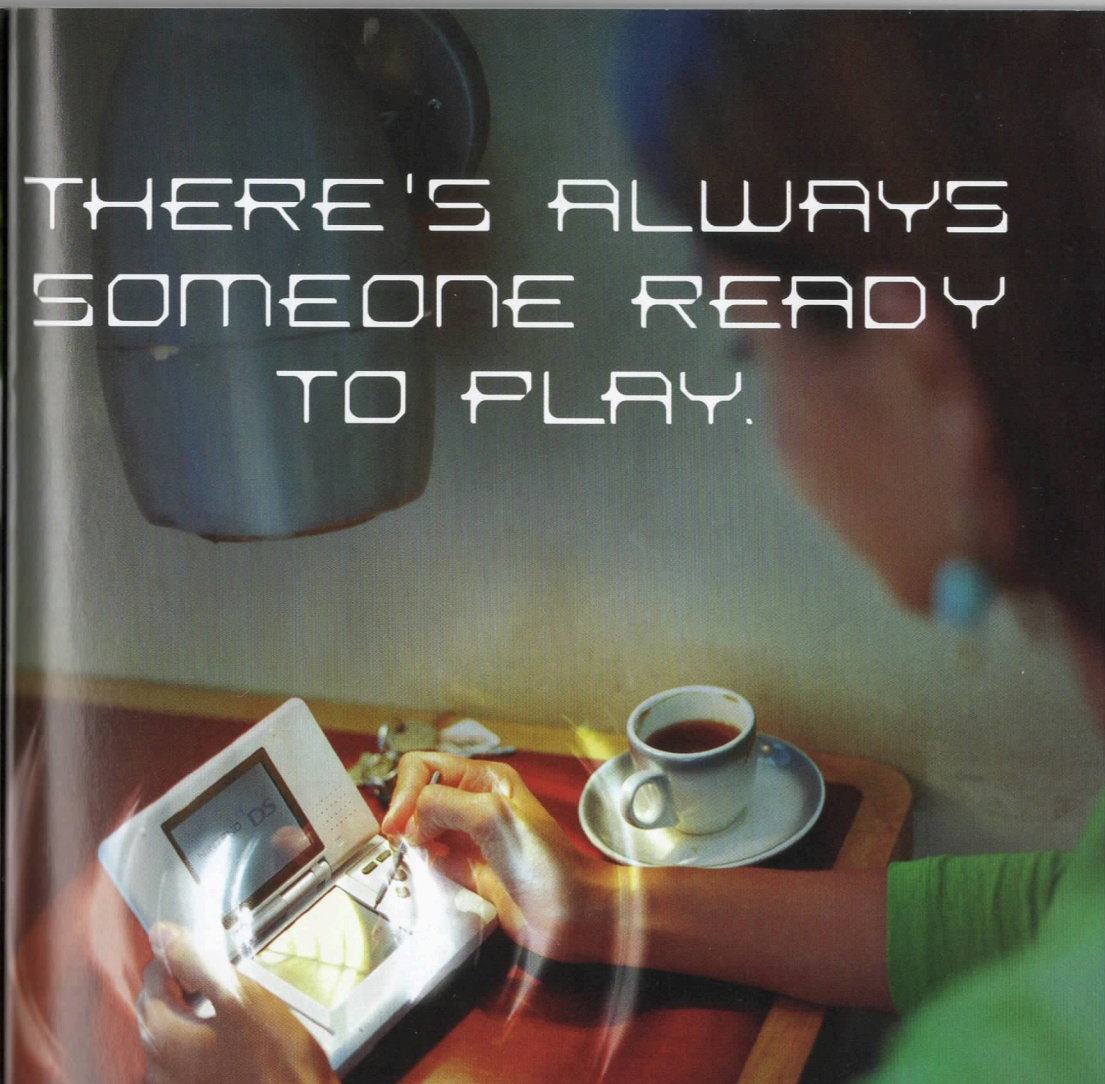
nintendo Wi-Fi connection

A groundbreaking, portable, wireless gaming network, the Nintendo Wi-Fi Connection fulfills the promise of the system's wireless capabilities by taking advantage of yet another DS innovation and using it to expand the gaming experience to wider audiences.

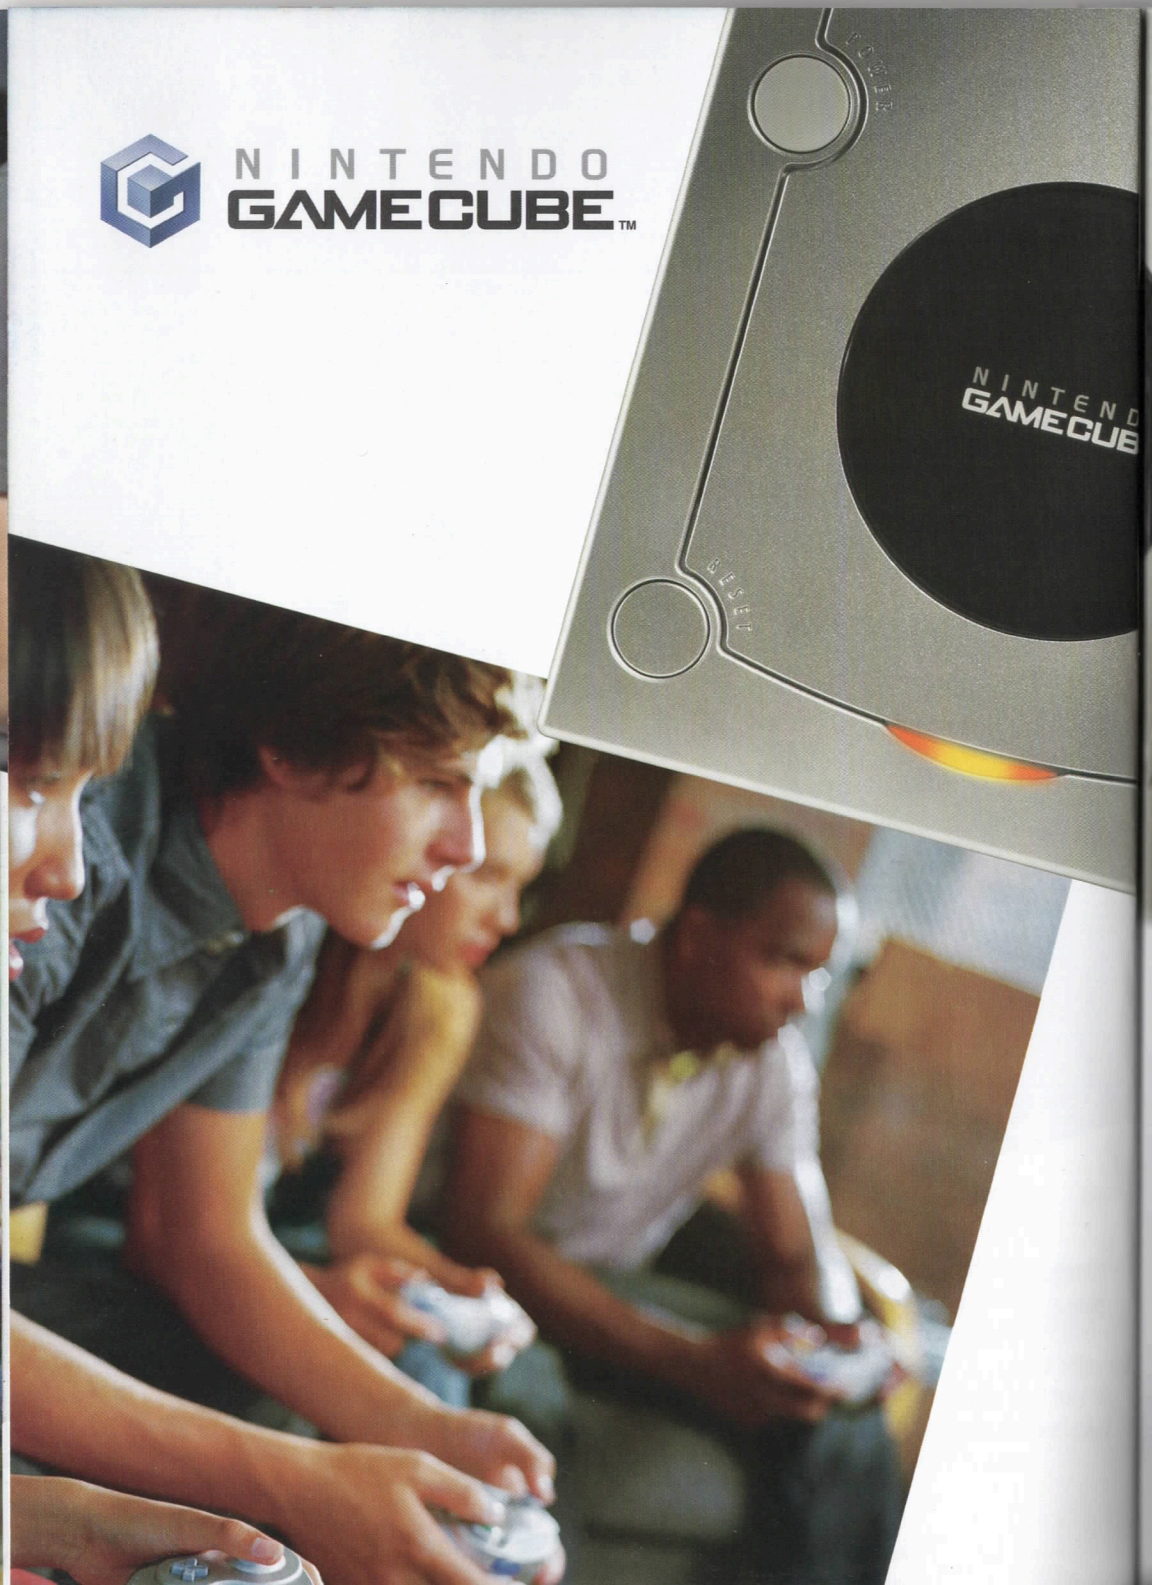
DS owners connect wirelessly at home via their wireless network or at designated hotspots, find their friends and begin racing, battling or chatting as easily as if they were sitting in the same room. Using the Nintendo Wi-Fi Connection, **Mario Kart DS** lets up to four racers compete in classic Mario Kart fashion on both new and classic tracks. **Animal Crossing: Wild World** gives players in different locations the ability to play simultaneously and explore each other's towns. Players can hang out, collect items or visit with friends. Add in **Tony Hawk's American Sk8land** and **Metroid Prime Hunters** to the mix and you'll be playing for hours on end.

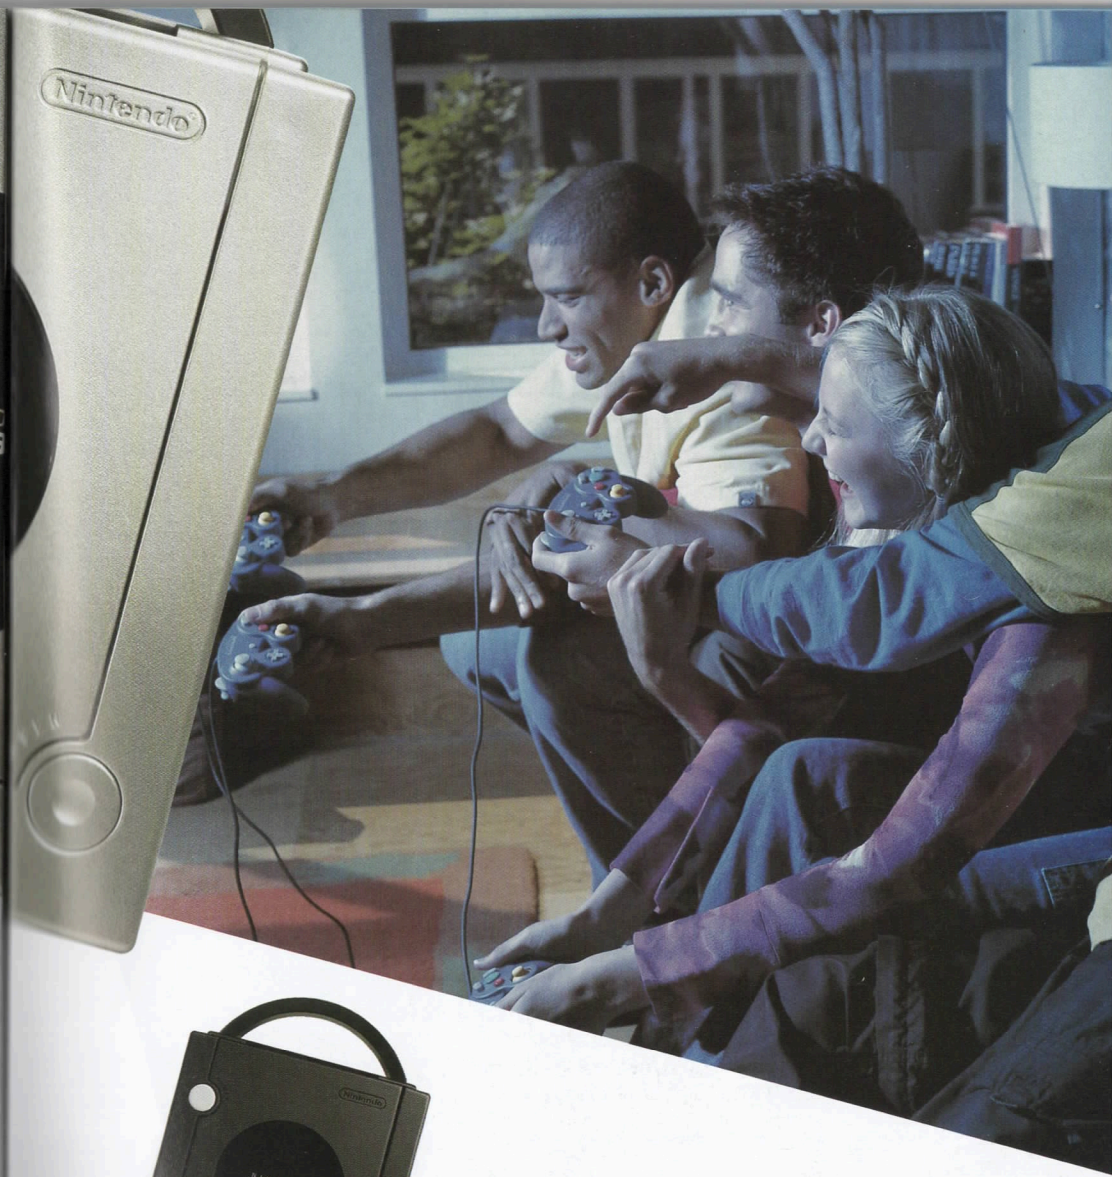
www.NintendoWiFi.com

THERE'S ALWAYS SOMEONE READY TO PLAY.



NINTENDO GAMECUBE™



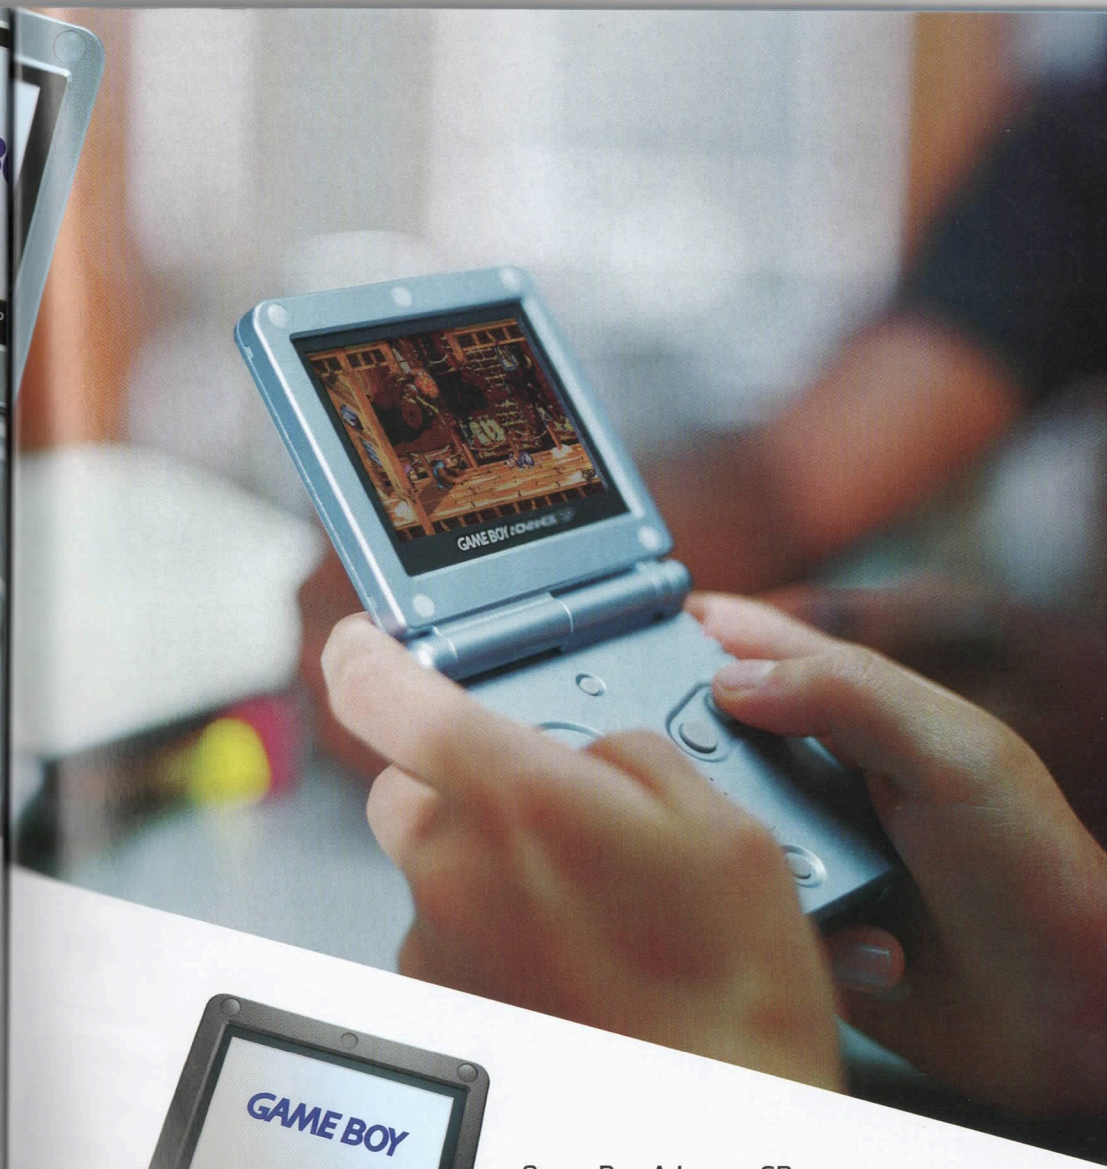


Nintendo GameCube

Where innovation meets fun. From its unique, stylish design to its extensive catalog of titles, the Nintendo GameCube breaks new ground in gameplay. Its fast-loading optical disc helps keep down delays for more in-game time, and the ergonomically designed controller provides a flawless interface between the player and the game.

Connect a Game Boy Advance for even greater adventure! Expandable, adaptable and host to a library of exclusive characters and games, the Nintendo GameCube is focused on fun.

GAME BOY ADVANCE SP

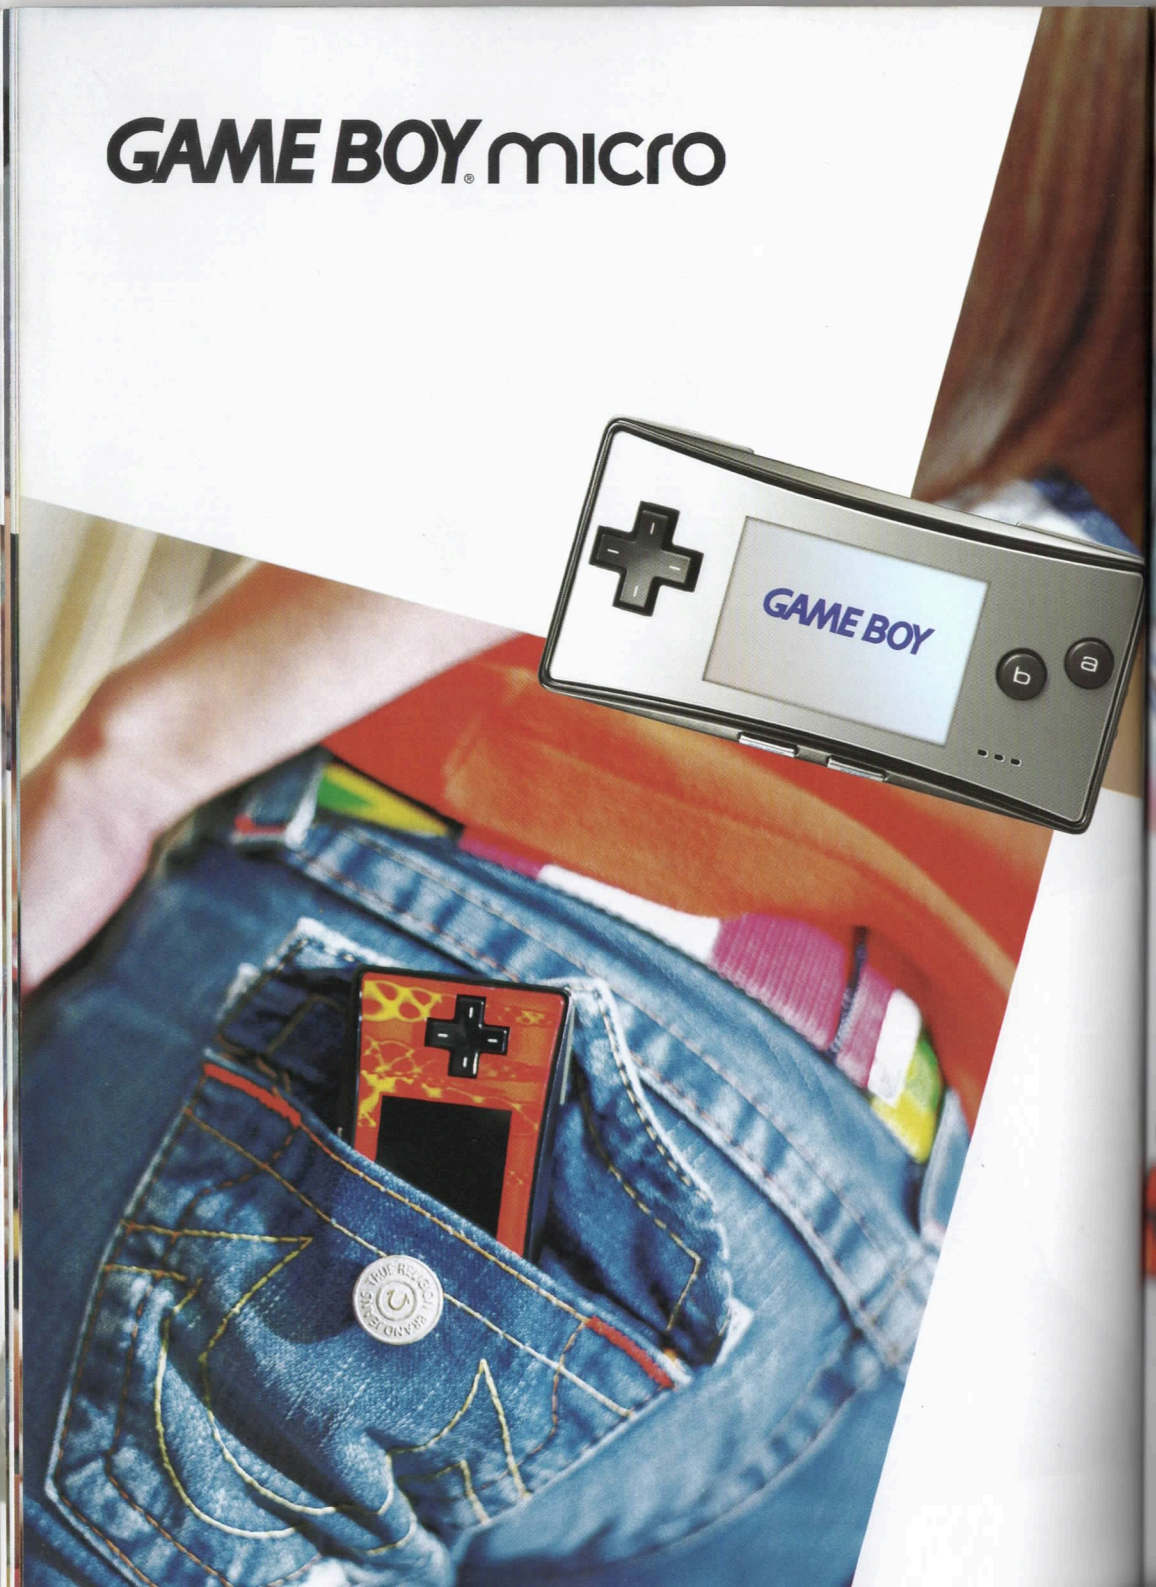


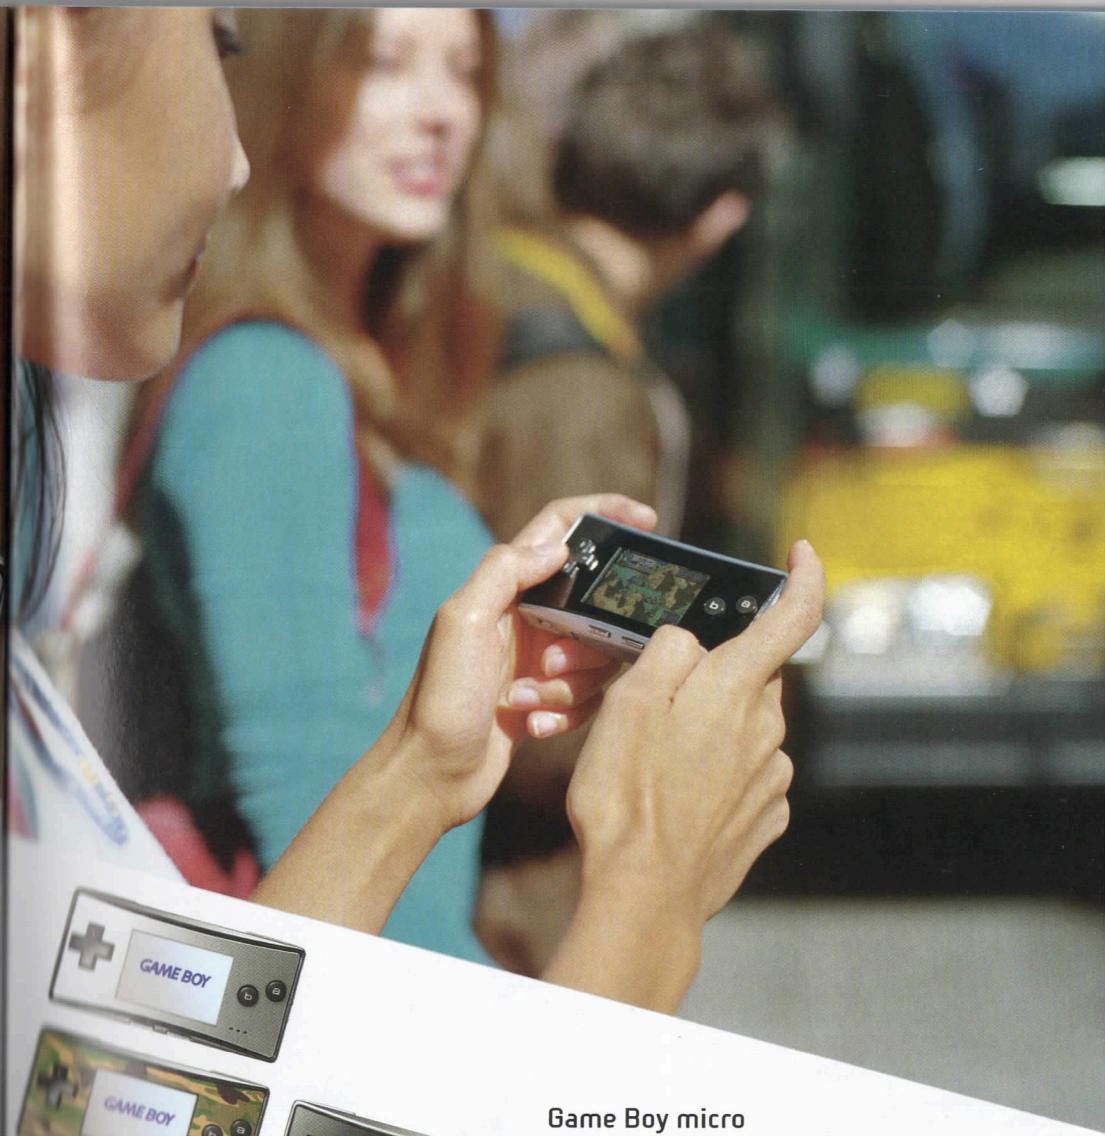
Game Boy Advance SP

Grab and go! Compact and yet amazingly versatile, Nintendo's Game Boy Advance SP continues to be the standard by which all other portable gaming systems are judged. This pocket-sized system unfolds a large, colorful screen to show off powerful performance and incredibly responsive gameplay.

Still the world's most popular video gaming system, the Game Boy Advance SP continues to grow and evolve alongside the demands of its millions of dedicated players. Solid, dependable and a true classic.

GAME BOY micro





Game Boy micro

The hippest new tech-cessory won't be found on a fashion runway, but it will turn every head just the same. Game Boy micro is one of the most sought-after must-haves heading into the holiday season. Measuring just 4 inches wide, 2 inches long and 0.7 inches thin, the Game Boy micro weighs 2.8 ounces (about the weight of 80 paper clips) yet it boasts the same power as previous Game Boy Advance models.

The edgy hardware comes in different colors so you can find the one that fits your style. The brilliant, backlit screen is super-detailed, making all your games look great. Plus it's compatible with all Game Boy Advance games–a library of more than 700 titles!

Get Equipped!

Nintendo DS has blazed a trail in the handheld world, and that path now leads to the ultimate in wireless gaming, Nintendo Wi-Fi Connection. With Wi-Fi capability built-in, Nintendo DS allows you to play with or against other Nintendo DS owners around the world. Believe it or not, you're only a few steps away from racing, thrashing, sharing, or battling with someone on Nintendo DS.

nintendo Wi-Fi connection

To begin, you'll need to equip yourself with a Nintendo DS and a Nintendo Wi-Fi Connection compatible game. Look for the Nintendo Wi-Fi Connection logo on upcoming titles to see if they are playable online.

Mario Kart DS (Nov)

Tony Hawk's American Sk8land (Nov)

Animal Crossing: Wild World (Dec)

Metroid Prime Hunters (2006)

Get Connected!

A wireless Internet connection, whether it's in your home or at a local Nintendo Wi-Fi Connection hotspot, is all you need to connect your Nintendo DS to other players around the globe.

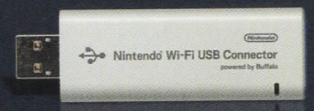
At Home

To play at home, hook up your broadband Internet connection, such as DSL or Cable, to a wireless router. See www.NintendoWiFi.com for a complete list of wireless routers that are compatible with your Nintendo DS. Next, connect to your wireless network. Each Nintendo Wi-Fi Connection compatible game comes with a setup utility. Follow the steps in the setup and get ready to take on the competition!

Nintendo Wi-Fi Connection Hotspots

The Nintendo DS is the ultimate gaming device because you can take your friends with you! All you need is a Nintendo Wi-Fi Connection hotspot. Once you're at a compatible wireless access point, use the same easy in-game setup utility to get connected. Go to www.NintendoWiFi.com to find free hotspots nearest you.

If you don't have a wireless internet connection, you can easily create one using the Nintendo Wi-Fi USB Connector. For more information, go to **store.nintendo.com/usb**.



Nintendo Wi-Fi USB Connector

Play!

Online games should be played the way you want to play them. Whether you want to keep to just a select group of people or take on all comers, Nintendo Wi-Fi Connection lets you set the boundaries.

Play with Your Friends

To play with people you know, you'll have to add each other to your "Friends Roster." Every Nintendo Wi-Fi Connection game has a "Friend Code" that is unique to each Nintendo DS. The "Friend Code" is automatically generated the first time you go online with a game. Once you have your code, pass it on to someone you want to play, then go online and select the "Play With Friends" option and off you go! Check your game manual for specifics on how to find and share your "Friend Code" or visit www.NintendoWiFi.com for more information.

Find a Challenger

If you prefer the thrill of the unknown or want to test yourself against the best the Internet has to offer, you can use automatch or challenger mode. Simply select this option when choosing online play and you'll be automatically matched up with the optimal players for you. With Nintendo Wi-Fi Connection ... there's always someone ready to play!
